

Exercise 2 — Your Personal Data Audit

Individual Reflection • 8 minutes

Data Types — Quick Reference

Use this table to help identify what kind of data each app collects.

Data Type	Examples
Numerical	Age, score, temperature, price
Categorical	Genre, Yes/No, country
Textual	Posts, reviews, captions
Visual	Photos, screenshots, videos
Auditory	Voice messages, music clips

Your Audit Table

Think about the apps and websites you use every week. Fill in at least 3 rows. The first row is an example.

App / Website	What data does it collect?	How does it use that data?	Worth the trade-off?
<i>e.g., TikTok</i>	<i>Videos watched, time spent, location</i>	<i>Recommend more content you'll watch</i>	☒ Yes ☐ No ☐ Unsure
			☐ Yes ☐ No ☐ Unsure
			☐ Yes ☐ No ☐ Unsure
			☐ Yes ☐ No ☐ Unsure
			☐ Yes ☐ No ☐ Unsure

Reflect & Discuss

1. Which app surprised you the most about the data it collects? Why?

2. Did thinking harder change any of your Yes answers to Unsure or No?

3. Is there one app you might use differently after this exercise? How?

Challenge

Find the privacy settings on one of your apps. What data can you choose NOT to share? Write what you found on the back of this sheet.
